

ACDelco GM OE Accelerator Pedal Assemblies

Accelerator pedal assemblies are available in the ACDelco General Motors Original Equipment (GM OE) product offering and can be ordered without going to a dealer. Designed for use with drive-by-wire technology, these part numbers provide the GM OE quality you expect and the availability you need. When replacement is necessary due to dirt exposure or excessive wear, install ACDelco GM OE accelerator pedal assemblies.

HIGHLIGHTS

- 47 total SKUs available
- Covers 184 high-volume applications
- GM OE parts available for service
 - ⇒ Only available to dealers prior to July 2014
- Buyer's Guide available with North American car parc
 - ⇒ See bulletin # 14D-067 for Buyer's Guide

Advantages of OE Assembly Replacement vs. Servicing Components Separately

- ✓ Pedal and sensor are integrated into a single modular design not offered by all competitors
- ✓ OE fit, form and function - meets OE safety requirements
- ✓ Safety-focused service strategy - pedal and sensor serviced together to help ensure safe operation
- ✓ Easy and error-proof installation, which can lead to labor time savings
- ✓ High quality and reliability due to robust GM OE design and validation
- ✓ Proven products that withstand harsh operating environments
