

ACDelco GM Original Equipment Cylinder Head Gaskets

ACDelco introduces the GM Original Equipment
Cylinder Head Gaskets!

Extreme Reliability

**ACDelco uses only Multi-Layered (MLS) Gaskets
on the majority of GM vehicles**

Providing spring-like performance

Multiple layers seal the gaps

When head lifts from the block as cylinders fire

Ideal for high-output engines

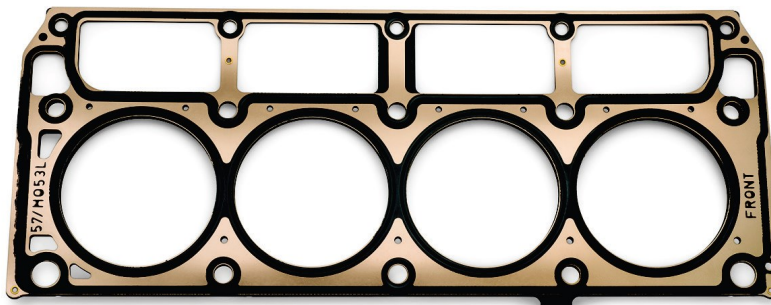

The higher the cylinder pressure, the greater the
head-block separation.

Why They Fail

Cylinder heads gaskets can
fail for a variety of reasons
like fatigue, cracks and
corrosion. This can lead to
coolant or oil loss, causing
engine overheating or
catastrophic failure.

Extreme Testing

ACDelco GM OE Cylinder Head Gaskets must pass rigorous, long-term testing of
high-torque, high pressure loads in extreme temperatures. They are covered by a
12-months/Unlimited-miles warranty.

ACDelco GM Original Equipment Cylinder Head Gaskets

ACDelco GM OE Cylinder Head Gasket Application Information
