

ACDelco IGNITION & SWITCHES

ACDelco knows quality, performance and durability are important to you and your customers. That's why General Motors Original Equipment (GM OE) and Professional ignition and switch products are put through a variety of tests, often under extreme or unusual conditions, to help deliver the quality parts you expect.

ACDelco ignition parts are never reverse engineered and are backed by a 12-month/12,000-mile limited warranty.*

DISTRIBUTOR CAPS AND ROTORS

- Precision-metal inserts provide maximum coil output and clear markings for easy installation.
- A specially designed distributor vent cap protects the interior from contamination and direct entry of water.
- High tension studs and full-size center contact deliver maximum conductivity.
- Full anti-arc barrier reduces the risk of engine misfire.

IGNITION MODULES

- ACDelco adds large buss bars to the original part design for added structural support and conductivity.
- Laser trimming provides precise values and helps eliminate deterioration and damage.
- Electronically welded lead connections help eliminate heat-stress failure or cold joints.
- Copper slug heat sink helps dissipate heat and create a more stable environment.

IGNITION COILS

- Laminations are corrosion-protected to ensure coils are not exposed to harsh operating environments.
- Laminations are shaped to ensure steel plates surrounding the coil correctly match the original part size and number of plates.

SWITCHES, SENSOR AND RELAYS

- ACDelco offers a variety of switches, including door lock, turn signal, ignition, trunk and windshield wiper switches, for most GM vehicles on the road today.
- High quality switches, sensors and relays help keep the engine running at optimal efficiency while operating at peak performance.
- Proper fit, form and function.

ACDELCO VOLTAGE REGULATORS

- Built as the ideal replacement part for GM equipment and delivers needed system voltage.
- Outstanding radio noise suppression for better performance.
- Provides proper fit, form and function to match the original manufacturer specifications.

*Whichever comes first. To the original retail purchaser. Installation not included.

SKU: 01-SS-0080-15E
