

# ACDelco DEXRON®-VI Automatic Transmission Fluid

ACDelco knows the heart of your business is your customers, and to keep them coming back means keeping the heart of their vehicles running healthy and smooth. With ACDelco DEXRON®-VI, you'll not only be able to offer reliable products to keep transmissions performing at their best, but also the ability to service both GM and other popular makes and models.

## **BENEFITS**

- Synthetic fluid with high shear stability and oxidation resistance
- Provides superior year-round protection and performance
- Provides anti-wear protection to extend equipment life
- Helps smoother shifting and reduced shudder
- Helps to extend service life and performance

Recommended for use in GM transmissions model year 2006 and newer calling for DEXRON®-VI and replaces DEXRON III (H) and DEXRON II (E).

Also recommended for any other vehicle manufacturer that calls for DEXRON®-VI, Type III or II (E).

Not for use in continuously variable or dual-clutch transmissions, which require specialized fluids. Consult the Owner's Manual for the correct fluid recommendation. Misapplication may cause severe performance problems.
