

# Motor Oil, ATF and Popular Fluids Truckload Programs

Revised: 02-09-16

**ACDelco Oil and Fluids Program supplied by Phillips 66**

- Orders must be input via EPIC/Electronic Ordering.
- Orders must be placed in full truckload quantities.
- The order can consist of any combination of the part numbers below but must total 20 pallets.
- Each product must be ordered in full pallet quantities.
- You may combine your truckload order with other eligible ACDelco orders which allow you to maximize your payment terms.

**Important Order Information  
Warehouse Management System (WMS)**

- Please be sure to use the proper ACDelco part number(s) in addition to the appropriate ACDelco manufacturer line code to ensure your ACDelco sale is recorded accurately.

**ACDelco/Phillips 66 Products**

\* Mixed pallets of drums; Order in multiples of 4.

## ACDelco Oil Program supplied by Exxon Mobil

- Please use the “required” order forms (TL and LTL) as each outlines the proper procedure for submission and tracking.
- Products can be mixed with other products on the ACDelco/Exxon Mobil Program.
- Do not use electronic ordering.

## Order Submission Methods/Procedure

- Truckload Orders: Please refer to the order form for submission details.
- LTL (Less than Truckloads) orders may be placed directly with the local Exxon Mobil Oil Distributor. When you choose this method of ordering from the local distributor, CCA requests that you forward a copy or email a copy of the order to GM CCA Grand Blanc (address on order form). By providing the CCA team with a copy of your LTL order, we will be able to track your order processing and fulfillment. Note: LTL orders may also be placed directly through the CCA team (utilizing the same LTL order form) which will then be automatically tracked by CCA.
