

Mobil™ Full Synthetic

Guaranteed protection for 1.5X longer than conventional oil*

Drivers entering the full synthetic category have spoken – they want a brand they trust and a great value. To meet these needs, Mobil Full Synthetic offers a full synthetic option that guarantees engine protection, meets the latest industry and car manufacturer requirements, and is available in 0W-20, 5W-20, and 5W-30 viscosities. It’s never been easier to step up from conventional and experience the Mobil advantage, with the protection of new Mobil Full Synthetic motor oil.

Mobil Full Synthetic motor oils are recommended for gasoline-powered vehicles, including turbo-charged engines found in passenger cars, SUVs and light-duty vans and trucks. These oils are formulated for both vehicles requiring a full synthetic and vehicles that are upgrading from conventional or synthetic blends.

For our ultimate in performance and protection, upgrade to our Mobil 1™ motor oils, a family of advanced full synthetic engine oils.

Always check your owner’s manual for the manufacturer’s recommended oil viscosity grade, API service classification and any builder approval.

Features

- Full Synthetic formulation with balanced additive system
- Excellent resistance to oil breakdown
- Helps prevent sludge/deposit formation and engine wear
- Maintains oil viscosity even in high operating temperatures
- Mobil Full Synthetic Limited Warranty*

Advantages and Potential Benefits

- Outperforms conventional oil
- Proven long lasting protection
- Helps extend engine life
- Helps control oil thickening and breakdown
- Guaranteed engine protection
